

BERTRAM

# Mister Big.

This is Bertram's thirty-eight-foot-thirty-mile-an-hour-mini-mansion. There are some things about it that you should not tell your wife.

Like all Bertrams, it's built tough and goes fast soft and runs steady where other boats are slowed down to a walk. So you can take it offshore where the big boys play. But that kind of talk will only set your wife's teeth on edge.

As far as she's concerned, you finally went soft and bought a big, roomy, plush, comfy cruiser to impress her friends. You did it for her, understand?

In fact, the three private cabins are as big or bigger than the cabins on some flat-bottomed wobbly-pounders. She could put a beautiful 9' x 12' carpet in the main salon, if we hadn't done it first. Even the forward stateroom has 6'3" headroom. The sundeck is 120 square feet big. Big room. Big beds. Big drawers. Big windows.

Mister Big is also Mister Posh. Three floor-to-ceiling hanging lockers. Hot water showers in both heads. Wall-to-wall carpets everywhere. Separate freezer and refrigerator. A double-rotisserie oven. Built-in stereo with hidden speakers. Oodles of teak paneling. Decor with quiet good taste.

Mister Big, Bertram built it so your wife would think it was for her while you get all the great big boating you've always wanted.

The Bertram 38 3844 Cruiser with only 22' A.P. McConan design is, standard equipment includes: cupping fiberglass, teak and aluminum, air-conditioning, electric engine room, compass, refrigeration, heated and automatic anchor, 110 volt generator, electric bilge pump, high speed, diesel water pump, 40-gallon hot water and three-core ether tank.
